## STRENGTHS

### Problem Solving
Problem solving includes defining the issue, pinpointing its root cause, and selecting solutions. This is a skill I've become proficient at by constantly developing and trying to improve upon my own projects.

### Working in Teams
Team collaboration involves using diverse strengths, effective communication, and combining contributions for collective goals. Throughout my years studying, I feel like this is something I've only gotten better at. All group projects have led me to a point where I now feel like working in teams is a great skill of mine.

### Learning
Learning, often overlooked as a skill, is my constant pursuit. I enjoy discovering new things and consider it a vital skill that fuels adaptability and personal growth.

## LANGUAGES

**Swedish**
Native.

**English**
Fluently speaks and writes in English. Around a C1 level.

## PASSIONS

### Projects
Actively develops my own software projects.

### Guitar
Enjoy playing the guitar and trying new genres.
